PROFESSIONAL PROFILE

I started web development out of curiosity about how websites are built and how design connects with functionality. As I explored more, it became something I genuinely enjoy—turning ideas into real, working digital experiences.

I am passionate about learning step by step, improving my technical and creative skills, and building clean, user-friendly websites. My goal is to grow into a full-stack developer and create impactful web applications in the future.

A dedicated and highly motivated 7th-grade student with a deep passion for web architecture and creative problem-solving. Currently undergoing rigorous technical training at Evangadi Ethiopia Coding Academy, I combine academic excellence with a disciplined approach to learning modern programming. I am recognized for my creativity in design and a strong commitment to building functional, user-centric digital solutions.

CAREER OBJECTIVE

To leverage my growing expertise in frontend and backend technologies to become a professional Full-Stack Developer. My goal is to contribute to innovative, real-world projects that solve complex problems through clean code and modern design principles.

TECHNICAL SKILLS

- **Core Web Technologies:** HTML5, CSS3
 - **Frameworks & Libraries:** Bootstrap (Responsive Design)
 - **Development Tools:** Version Control (Git), VS Code, UI/UX Design Principles
 - **Soft Skills:** Logical Reasoning, Rapid Learning, Discipline, Creative Problem Solving
-

TECHNICAL PROJECTS

Apple-Inspired Web Interface

- Designed and developed a high-fidelity landing page inspired by modern tech aesthetics.
- Focused on achieving a clean, minimalist UI and ensuring 100% responsiveness across all device sizes using Bootstrap.
- Implemented precise layout structures to mirror professional industry standards.

Personal Portfolio Website

- Engineered a professional digital portfolio to showcase technical projects and coding progress.
- Utilized advanced CSS and Bootstrap utilities to create a modern, interactive user experience.
- Integrated clean navigation and structured content to highlight skills and achievements.

Web Development Intensive – Evangadi Ethiopia

- Actively building a diverse range of projects while mastering the Full-Stack curriculum.
 - Collaborating on coding challenges to refine logic and troubleshooting capabilities.
-

ACHIEVEMENTS

- **Innovation & Creative Excellence Awards:** Recognized for outstanding performance in innovation-based competitions, demonstrating the ability to transform ideas into tangible projects.
- **Academic Excellence:** Consistently maintains high standards in formal education while simultaneously pursuing advanced technical certifications.

Awards

EDUCATION

- **Primary Education:** Grade 7 Student (Current)
- **Professional Training:** 6-Month Full-Stack Web Development Course – **Evangadi Ethiopia Coding Academy** (In Progress)
